Installation Instruction Sheet

Manuel d'installation

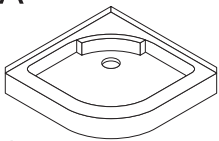

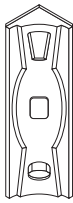

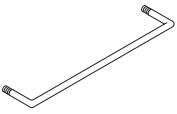

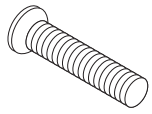

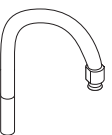

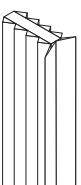

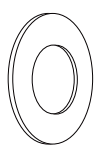

Instructions for installing shower cabin

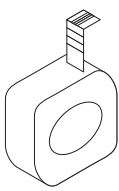

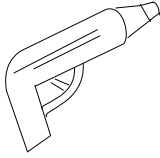

Intruction pour l'installation de la cabine de douche

Elements:

A  1X	B  1X	C  2X	D  1X	E  10X	F  10X
G  1X	H  2X	I  10X	J  1X		

Tools:

					
---	---	---	--	--	--

Step 1

- A. Install vertical studs of 2" x 4" as shown in (pic.1) to be use as fixation base.
- B. Install horizontal studs of 2" x 4" as shown in (pic.1) to be use as shower support.

N.B. The dimension of the verticals studs are taken from the outside.

Étape 1

- A. Installez les montants verticaux en 2" X 4" comme montré dans (fig.1) qui sera utilisé comme base de fixation.
- B. Installez les travers horizontaux en 2" X 4" " comme montré dans (fig.1) qui sera utilisé comme base de fixation.

N.B. Les dimensions des montants verticaux sont prisent de l'extérieur.

Step 2

- Drill the floor to accommodate the drain pipe of 2" .
- The drain must come up 1/2" above the existing floor level.

N.B. The distance between the wall and the drain is 12" ± 1/4" at the drain's center, check with your base for the final measurements.

Stud measurements are taken fom the outside.

Étape 2

- Percez le plancher pour permettre l'installation d'un tuyau de drain de 2". Le drain doit être 1/2" au dessus du plancher existant.

N.B. La distance entre le mur et le drain est d'environ 12 1/4" au centre du drain.

Vérifiez avec votre base pour les mesures finales.

Step 3

- A. Install the water line, taking into consideration the installation guide of your faucet and following the local plumbing code.
- B. Position base in corner, ensure that the hole in the base matches the position of the drain in the floor. Mark the exterior location (pic.3) of the base and remove it.

N.B. If the hole in the base and the drain are not completely alined, make the appropriate changes.

Étape 3

- A. Installez la plomberie en considérant le guide d'installation de celle-ci ainsi qu'en suivant le code de plomberie local.
- B. Placez la base dans le coin et assurez-vous que le trou de la base concorde avec la position du drain dans le plancher. Marquez la position de la base du côté extérieur (fig.3) et retirez-la.

N.B. Si le trou de la base et le drain ne sont pas complètement alignés, faites les changements appropriés.

Étape 4

Install the drain on the shower base.

N.B. Refer to the manufacturer's instructions for the proper installation of your drain.

Step 4

Installez le drain sur la base de douche.

N.B. Référez-vous aux instructions du fabricant pour l'installation de votre drain.

Step 5

A. Prepare the mortar cement mix and apply it to 5 or 6 places where the base is to be installed. Place the cement in a manner that will adhere properly to your base.
B. Place the base in proper position and apply pressure to ensure it is in contact with the surface.

N.B. Make sure that your base is leveled both from front to back and left to right.

Étape 5

A. Préparez le mélange de mortier et de ciment afin de l'appliquer à 5 ou 6 endroits où la base doit être installée. Mettez le ciment de façon à ce qu'il adhère à la base.
B. Installez la base en place et appliquez une pression afin d'assurer le contact avec la surface.

N.B. Assurez-vous que la base soit de niveau de l'arrière à l'avant et du côté gauche au côté droit.

Step 6

A. Once the drain is connected, check the drainage of the base. Plug the drain and fill the base with 2" of water. Check for any leakage.
B. Unplug the drain and assure that the drainage is completed correctly, without any accumulation in the base.

N.B. Check around the drain to see if any bubbles appear, if so your drain is not sealed correctly and must be resealed.

Étape 6

A. Une fois le drain connecté, vérifiez le drainage de la base. Fixez le drain et remplissez la base avec 2" d'eau. Vérifiez qu'il n'y a pas de fuite.
B. Retirez le drain et assurez-vous que le drainage s'est effectué correctement.

N.B. Vérifiez autour du drain pour voir s'il y a des bulles. Si c'est le cas, votre drain n'est pas scellé correctement et doit être refait.

Step 7

A. Mark and drill the base lips to secure it to studs with a 3/16" drill bit.

B. Use #8 1" (not included) screw to fasten the base to the vertical stud.

N.B. Do not overtighten the screws.

Étape 7

A. Marquez et percez la bande de la base pour la fixer dans les montants avec une mèche de 3/16".

B. Utilisez des vis #8 de 1" (non inclus) pour fixer la base dans les montants.

N.B. Ne pas trop serrer les vis.

Step 8

Install the top shower to arc rear panel.

Étape 8

Installez le dessus de douche au panneau arrière arqué.

Step 9

Install the towel rails to left and right panels.

Étape 9

Installez les porte-serviettes sur les panneaux de gauche et de droite.

Step 10

Put the waterproof strip between the left side panel and the arc rear panel's left side and then tighten together with screws.

Étape 10

Installez la bande d'étanchéité entre le panneau gauche et le côté gauche du panneau arrière arqué et vissez-les ensemble.

Step 11

Install the left rear panel to the left side of the arc rear panel, and fix them with 5pcs M6*25 screw. Do not overtighten.

Étape 11

Installez le panneau arrière gauche au côté gauche du panneau arrière arqué et vissez avec 5 vis M6*25 sans trop serrer.

Step 12

Put the waterproof strip between the right side panel and the arc rear panel's right side and then tighten together with screws.

Étape 12

Installez la bande d'étanchéité entre le panneau droit et le côté droit du panneau arrière arqué et vissez-les ensemble.

Step 13

Install the right rear panel to the right side of the arc rear panel. And fix them with 5pcs M6*25 screws. Do not overtighten.

Étape 13

Installez le panneau arrière droit au côté droit du panneau arrière arqué et vissez avec 5 vis M6*25 sans trop serrer.

Step 14

Fix both left and right rear panels to the wall with 18pcs M6*30 screws (not included) as shown in the diagram.

Étape 14

Fixez les panneaux arrières gauche et droit au mur avec 18 vis M6*30 (non inclus) comme montré dans l'image.

Shower Base Installation Manual

Manuel d'installation base de douche

This indentation is designed to ensure the water goes back to the shower base, towards the drain.

Cette fente est conçue pour permettre à l'eau de retourner vers l'intérieur de la base de douche, vers le drain.

● IMPORTANT / IMPORTANT

1. Read this manual carefully and completely before proceeding.

* Lisez attentivement ce manuel au complet avant de continuer.

2. It is recommended that you wear safety glasses at all times during the installation

* Il est recommandé de porter des lunettes de sécurité en tout temps lors de l'installation

3. Prior to installation of base, all framing and plumbing work must be completed in accordance with this instruction sheet. For renovation work, existing shower surfaces must be removed to accommodate framing requirements. Ensure that outer wall are properly insulated, and that a vapor barrier has been installed in accordance with established building codes.

* Avant l'installation de la base, toute la charpente et les travaux de plomberie doivent être complétés conformément à la présente feuille d'instruction. Pour les travaux de rénovation, les surfaces murales existantes doivent être enlevées pour installer le cadrage exigé. Assurez-vous que les murs extérieurs sont isolés correctement et que le pare-vapeur a été installé conformément aux codes du bâtiment.

● Care for your Acrylic Shower Base / Prenez soin de votre Base de douche en acrylique

In order to protect the acrylic surface of your base, never use scouring powder pads or other strong solvent. Only clean with a mild detergent diluted in water or a detergent formulated specifically for acrylic.

Afin de protéger la surface en acrylique de votre base, ne jamais utiliser de tampons à récurer avec poudre ou tout autre solvant fort. Nettoyez avec un détergent doux dilué dans de l'eau ou un détergent formulé spécifiquement pour l'acrylique.

LIMITED WARRANTY

By choosing a NADOLI product, a leader in the plumbing industry, you are sure to make the right choice. On top of the quality materials that are used to make their products, NADOLI's advanced manufacturing processes also benefit its products' quality and longevity. To attest to this, they decided to offer their customers a beneficial warranty.

We certify that our products will meet your needs with their style, but also with their manufacturing quality. To make sure that they are reliable and safe, each product was carefully inspected, tested and approved during the quality control process that is in place.

To whom does this warranty apply?

NADOLI offers a **10-year limited warranty on shower bases and doors** from the date of purchase, exclusive to the first buyer as long as he/she resides in the same property. The warranty is intended for residential and/or domestic use.

Care instructions

Clean the product with water and a mild detergent. Abrasive or corrosive cleaners, steel wool, acetone, dry cleaning products or ammonia compounds must never be used to clean the product. If a shower mat is used, it must be removed right after each use. We recommend the use of cleaning products that are made for acrylic specifically.

What is covered by the warranty?

	1 Year*	10 Years*
Bases and walls	Drain, drain cover, polypropylene and PVC	Acrylic and fiberglass against manufacturing defects
Shower doors	Wheels, handles, diverter, screws, rails, towel bars and guide	Tempered glass

*From the date of purchase.

Should there be any manufacturing defects that are not covered by the warranty, the product will need to be inspected prior to following through with the claim. Without that verification, the brand will assume no charge and/or responsibility.

What are the exclusions?

This warranty is applicable on all NADOLI products purchased on or after January 1st, 2018.

The warranty doesn't apply if the product is damaged as a result of misuse, overuse or non-residential use, neglect, lack of maintenance, or the use of corrosive or abrasive products, regardless of the person who did those damages. The warranty does not cover shipping and labour costs. The warranty does not apply to the normal tear and wear of the goods.

The warranty doesn't cover the damages caused by the acts of God or breakage resulting from a shock or mishandling, regardless of the part played by the buyer or the installer. It also excludes the damages caused by an improper installation.

NADOLI doesn't cover damages caused by a water leak, even if they result directly or indirectly from a product defect, except where the applicable legislation does not allow any exclusion or limitation following indirect or consequential damages.

It is fair to say that if the product has a manufacturing defect, it will show as soon as it is installed or shortly after. However, a leak caused by an improper installation could happen a long time after. Therefore, it is strongly advised to have it done by a professional.

All warranty claims must include the invoice copy.

Should a part or product component be defective or the finish damaged following a normal domestic and residential use, NADOLI commits to replacing the defective part(s) to the first buyer only. NADOLI could also, in its sole discretion, commit to offer a full replacement. No indemnity shall be claimed for loss of enjoyment of life, loss of income or losses caused by water.

GARANTIE LIMITÉE

NADOLI vous remercie de la confiance que vous lui avez témoignée en achetant un de ses produits et vous félicite pour votre nouvelle acquisition. NADOLI s'impose comme un des leaders dans l'industrie de la plomberie et offre, à travers l'Amérique du Nord, une large gamme de produits qui vous charmera.

La compagnie vous assure que cette gamme de produits saura satisfaire vos besoins, en partie grâce à sa fabrication et à son style. De plus, le produit est testé, approuvé et soigneusement vérifié pour une utilisation fiable.

À qui la garantie s'applique-t-elle?

NADOLI offre une **garantie limitée de 10 ans sur les bases et portes de douche**, à partir de la date d'achat, au premier acheteur, tant et aussi longtemps qu'il réside la propriété. La garantie est destinée à un usage résidentiel et/ou domestique.

Consignes d'entretien

Nettoyer la surface à l'aide d'un détergent doux et de l'eau. Ne jamais utiliser de détergents abrasifs ou corrosifs, de tampons de laine d'acier, d'acétone, de produits de nettoyage à sec ou de composés d'ammoniac sur les surfaces. Si un tapis est utilisé, il doit être enlevé immédiatement après chaque utilisation. L'utilisation d'un nettoyeur spécialement formulé pour l'acrylique est recommandée.

Que couvre la garantie?

	1 an*	10 ans*
Bases et murs	Drain, couvre-drain, polypropylène et PVC	Acrylique et fibre de verre contre tout défaut de fabrication
Portes de douche	Roulettes, poignées, déflecteur d'eau, vis, rails, barre à serviette, guide	Verre trempé

*À partir de la date d'achat

S'il y a des défauts de fabrication couverts par la garantie, le produit devra être inspecté avant de donner suite à toute réclamation. Sans cette vérification, aucun frais et/ou responsabilité ne seront assumés par la marque.

Quelles sont les exclusions?

Cette garantie est applicable pour tous les produits NADOLI achetés en date du 1^{er} janvier 2018 ou après.

La garantie ne s'applique pas si les dommages au produit résultent d'une utilisation non-conforme, d'un usage abusif ou non résidentiel, de négligence, d'un manque d'entretien, ou en raison de l'utilisation de produits corrosifs ou abrasifs et ce, peu importe qui est responsable de ces dommages. La garantie ne couvre pas les frais d'expédition et de main-d'œuvre. NADOLI ne garantit pas l'usure normale des composantes.

La garantie ne couvre pas les dommages causés par les actes de Dieu ou les bris résultant d'un choc ou d'une mauvaise manutention. Elle exclut aussi les dommages qui résultent d'une mauvaise installation.

D'emblée, NADOLI ne couvre jamais les dommages aux biens causés par une fuite d'eau, que ceux-ci soient directement ou indirectement liés à un défaut du produit, sauf là où la législation applicable ne permet aucune exclusion ou limitation suite à des dommages indirects ou consécutifs.

Il est juste de préciser, s'il y a présence d'un défaut de fabrication sur le produit, il se manifestera dès l'installation ou peu de temps après. Par contre, si une fuite est causée par une mauvaise installation, elle ne pourra survenir que beaucoup plus tard. Il est donc fortement recommandé de faire appel à un professionnel.

Toute demande de réclamation de garantie doit être accompagnée d'une copie de la facture.

Si une pièce ou composante du produit est défectueuse ou si le fini est endommagé, et ce dans le cadre d'un usage domestique et résidentiel normal, NADOLI s'engage à remplacer, uniquement au premier acheteur, la ou les composantes défectueuses, ou à son entière discrétion, à fournir une nouvelle base ou porte de douche. Aucune indemnité ne pourra être réclamée suite à la perte de jouissance de la vie, à la perte de revenu ou aux pertes causées par l'eau.
